The Centro Einaudi is an independent non-profit research institute based in Turin.

Our mission, inspired by Luigi Einaudi's work and his dictum "*conoscere per deliberare*" (*knowledge must come before deliberation*), is to conduct independent research, and, based on that research, to provide innovative recommendations in the fields of political economy, government and the markets, public policies.

The Centro Einaudi research areas are liberal theory, global economy and finance, international relations, law, politics and culture, politics and comparative public policy, Italian policies and reform, regional development.

Since 1963, the Centro has been a beacon of liberalism and one of the most influential Italian think-tanks. Many of its members hold prominent positions in academia, government, business and the media.
